Professional Summary

IT Leader and Global Delivery Manager with 10+ years of experience in mission-critical systems. Currently at Serasa Experian, I lead global squads in Fintech, Big Data, and Cloud, managing end-to-end delivery with a focus on scalability and reliability. Specialist in Agile methodologies and DevSecOps, with a track record of accelerating time-to-market through Generative AI and robust governance.

Core Expertise & Competencies

- **Core Tech / Main Stack:** Strong technical proficiency in development and architecture using **Java**, **Angular**, and **.NET**.
- **Global Leadership:** Management of distributed squads (Brazil, India, USA, London, South Africa) and optimization of asynchronous workflows.
- **AI Engineering:** Acceleration of SDLC by 45% through the adoption of GitHub Copilot and AI workspaces.
- **Systems & Data:** Orchestration of Databricks/Spark pipelines for financial operations exceeding R\$ 500M+/month.
- **Security & Governance:** DevSecOps applied with a 93% reduction in critical vulnerabilities (PCI-DSS/LGPD).
- **Languages:** English (Fluent), Spanish and Chinese (Elementary).

Professional Experience

IT Coordinator | Serasa Experian | Nov 2024 - Present

- **Migration & Analytics (Databricks/Spark):** Strategic squad leadership in the modernization of legacy analytical architecture to Databricks/Spark via Pentaho/APIs, **reducing time-to-market** for data products and optimizing executive decision-making.
- **CyberSec & Payments (Veracode/PCI-DSS):** Implementation of DevSecOps governance and automated security pipelines for the payments squad, **mitigating security risks** and ensuring compliance with PCI-DSS standards.

Agile Delivery Manager | Serasa Experian | Apr 2021 - Nov 2024

- **Global Agile Governance:** Direction of 5 international cross-functional squads (UK/USA) focused on HR, Legal, CS, and Billing, controlling Agile KPIs (Velocity/Throughput) to **ensure strict alignment with corporate OKRs**.
- **Operational Efficiency (Design-to-Dev):** Optimization of technical handoff flow via Figma, **eliminating communication bottlenecks** and increasing the predictability and visual fidelity of digital products.

Full Stack Dev | Serasa Experian | Mar 2016 - Apr 2021

- **Software Engineering (Java & Angular):** End-to-end development of critical corporate transactional billing platforms using **Java**, Spring Boot, and **Angular**, integrating proactive monitoring via Dynatrace to **reduce incident resolution time (MTTR)**.
- **Modernization & Integration (.NET):** Coupling modern cloud architectures with legacy ecosystems based on **.NET**, Salesforce, and OutSystems, **ensuring transactional integrity** and high availability.

Support Specialist | Amdocs | Jul 2013 - Mar 2016

- **Automation & Batch Processing:** Construction of automated routines in Unix (Shell Script) and Oracle (PL/SQL) for the Telecommunications sector, **optimizing large-scale database performance**.
- **Crisis Management (L3 Support):** Resolution of critical production incidents in highly complex global environments, **maintaining service levels under the market's most rigorous SLAs**.

Product Owner | XBot | Nov 2010 - Jul 2013

- **Product Management & Revenue:** Leadership of the lifecycle and requirements for robotics and EdTech platforms, **generating R\$ 4 million in revenue** through agile and strategic alignment across 12 distributed sales teams.

International Consultant | Bernardin Consultants | Jan 2010 - Dez 2010

- **B2B Feasibility Analysis:** Coordination of market prospecting and financial viability for strict high-tech industries (Defense and Military Aviation), **enabling strategic deals** between European investors and the national market.

Education

Federal University of São Carlos (UFSCar)

Postgraduate (Specialization) in Software Engineering, Web Development, Java, and Databases (2018 - 2019)

Centro Universitário Central Paulista (UNICEP)

Bachelor's Degree in Electrical Engineering, Retrofit Project and Modernization of Reclosers for Power Transmission Systems (2005 - 2011)
