Wesley Gomes da Silva

Agentic Technical Program Manager | AI-Enabled Global Delivery

São Carlos, SP or Pato Branco, PR, Brazil | Remote | +55 16 99721-2966 | wesley.zilva@gmail.com
LinkedIn: https://www.linkedin.com/in/wesleyzilva/ | GitHub: https://github.com/wesleyzilva | Portfolio: https://wesleyzilva.github.io/portfolio

PROFESSIONAL SUMMARY

Technical Program Manager with 10+ years delivering mission-critical systems in Fintech, Big Data and Cloud. Leads globally distributed squads (Brazil, India, USA, London, South Africa) and builds AI-enabled delivery models: GitHub Copilot and AI workspaces that accelerated the SDLC by 45%, an AI-powered squad framework with AI agents and MCP connections that bring business context into delivery work, and an AI smart-search and triage workflow that cut legal operation SLA by 12%. Combines a hands-on Java, Angular and .NET background with DevSecOps governance, OKR-driven roadmaps and executive communication. Open to nearshore, offshore and international roles.

KEY ACHIEVEMENTS

- 45% faster SDLC through GitHub Copilot and AI workspaces.
- 93% reduction in critical vulnerabilities with DevSecOps (PCI-DSS and LGPD context).
- 80M+ transactions per day and R$500M+ monthly reconciliation under structured monitoring and governance.
- 35% sprint velocity increase and 50% fewer cross-squad blockers across multiple international squads.

CORE COMPETENCIES

Program Management: Technical Program Management, Roadmap and OKR Alignment, Cross-Functional Delivery, Risk and Dependency Management, Stakeholder and Executive Communication, Vendor and Third-Party Squad Management, Distributed and Async-First Teams

AI and Agentic Delivery: AI Agents, Agentic Workflows, MCP (Model Context Protocol) Connections, Generative AI, GitHub Copilot, AI-Assisted SDLC, Smart Search and Triage, Elasticsearch, Low-Code Workflows

Agile and Delivery Tools: Scrum, SAFe, Kanban, Scrum-of-Scrums, OKRs, KPIs, DORA Metrics, Jira, Azure DevOps, Monday.com, Confluence, Notion, Figma

Engineering and Data: Java, Spring Boot, Angular, .NET, Databricks, Spark, Pentaho ETL, Power BI, Tableau, Datadog, Dynatrace, Shell Script, PL/SQL, Oracle

Cloud, Security and Compliance: AWS, Azure, GCP, Docker, Kubernetes (PM level), CI/CD, GitHub Actions, DevSecOps, Veracode, Checkmarx, Rapid7, PCI-DSS, BACEN, LGPD, FEBRABAN

PROFESSIONAL EXPERIENCE

LATAM Agile Project Delivery | AI Agents | Independent Contractor (Part-Time) | Global, Remote | Present

- Run distributed teams with an AI-powered squad framework, supporting global stakeholders from LATAM with async-first delivery.
- Use AI agents and MCP connections to bring business context into delivery work and speed up decisions.

IT Coordinator (Fintech M&A, Payments and Data) | Serasa Experian | Brazil | Nov 2024 - Present

- Lead data squads in the modernization of the legacy analytics architecture to Databricks/Spark (via Pentaho and APIs), cutting ETL processing time by 40% and reducing time-to-market for data products.
- Redesigned ownership after the acquisition into three accountable streams (data engineering, processing and analysis) with clear SLAs and an MLOps-ready foundation, sustaining 80M+ transactions per day.
- Run dual-track cybersecurity execution (SRE infrastructure migration and developer framework hardening) with automated security gates, risk dashboards and EPSS-scored prioritization.
- Led DevSecOps remediation across 110 Java/Angular applications with Veracode, Rapid7 and CI/CD, reducing total vulnerabilities from 1,200 to 300 in 9 months and critical/high findings from 47 to 3.
- Support the integration into a payments gateway platform for utilities, covering regulated Pix, Nubank and other Bacen-compliant payment flows.

Agile Delivery Manager (HR, Legal, CS, Sales, Billing) | Serasa Experian | London, UK | Apr 2021 - Nov 2024

- Led five cross-functional squads and seven engineers across London and the USA, aligning roadmaps with corporate OKRs and controlling Agile KPIs (velocity and throughput).
- Increased sprint velocity by 35% and reduced cross-squad blockers by 50% with Scrum-of-Scrums, SAFe practices, a gamified agile-maturity framework and Jira/ServiceNow dashboards.
- Designed and coordinated an AI smart-search and triage workflow for LegalTech (Elasticsearch and low-code), reducing legal operation SLA by 12%.
- Optimized the design-to-development handoff with Figma, removing communication bottlenecks and improving predictability.

Full Stack Developer (Billing, ITIL, Observability) | Serasa Experian | Brazil | Mar 2016 - Apr 2021

- Built critical transactional billing platforms with Java, Spring Boot and Angular, adding proactive monitoring with Dynatrace and Datadog to reduce incident resolution time (MTTR).
- Integrated modern cloud architectures with legacy ecosystems based on .NET, Salesforce and OutSystems, ensuring transactional integrity and high availability.
- Coordinated modernization waves from a legacy .NET portfolio to Angular/Java, migrating or decommissioning 20 critical applications.

Support Specialist | Amdocs | Brazil | Jul 2013 - Mar 2016

- Built automation and batch routines in Unix Shell Script and Oracle PL/SQL for telecom, optimizing large-scale database performance.
- Resolved critical L3 production incidents in global environments under strict SLAs, reducing daily incidents from 300 to 100 with 99.9% uptime in critical billing systems.

Product Owner | XBot | Brazil | Nov 2010 - Jul 2013

- Led the lifecycle and requirements of robotics and EdTech products, generating R$4 million in revenue across 12 distributed sales and partner teams.

International Consultant | Bernardin Consultants | France / Brazil | Jan 2010 - Dec 2010

- Coordinated market prospecting and financial feasibility for high-tech industries (defense and military aviation), enabling deals between European investors and the Brazilian market.

SELECTED PROJECTS

- Portfolio with AI chat assistant (#askToTPM_agentic): prototype that answers recruiter questions about this CV using CV-grounded retrieval, built with React and Vite and deployed on GitHub Pages (wesleyzilva.github.io/portfolio).

EDUCATION

Federal University of São Carlos (UFSCar) | 2018 - 2019
Postgraduate (Specialization) in Software Engineering, Web Development, Java and Databases

Centro Universitário Central Paulista (UNICEP) | 2005 - 2011
Bachelor's Degree in Electrical Engineering

LANGUAGES

English (Fluent), Spanish (Elementary), Chinese (Elementary), Portuguese (Native)
